#### Motion authorizing the presentation of South Robertson Neighborhoods Councils' ideas regarding a sustainable City of Los Angeles to the Mayor (Gomes & Liberman / GB09042014-1)

Terry says that the Mayor is having special meeting on Sept . 10<sup>th</sup> asking for NC or community to tell them "what our vision is." Our plan focuses on three areas:

- 1. Renewable Energies. Solar wind. Support the 100 program. Put solar panels anywhere to get energy. Place solar panels down the center of freeway.
- 2. Infrastructure. New construction. Should use permeable concrete. Bond measure was to be done by 2050. (old concrete is to not be used anymore)
- Water. Use recycled water for landscapes/toilets. Implementation of purple pipe line. There is a sample in LAX that has been used for 8 years. Need to go city wide with it.

Board comments and questions:

- Need to find a way for the way for the mayor to report back to the citizens.
- Ask them to set up a system where a report comes back to us once a year and see if that will help the city stay on track. Others will be coming to report to NC meetings. Paul Koretz office. Environmentally friends pesticides. Water off roof tops.
- We need to have a cost analysis and also if there are new alternatives/discoveries.
- Why every 2 and 5 year? Answer: Based on City of S.F.
- Maybe we want a city report to see if they have reached targets and do we have to recalibrate.
- Did we look at transportation? Not what the Mayor is looking for.

What will it cost us if we don't do it?

Terrence Gomes says that we were not given much notice and they put this together as quick as they could so they would have something to present.

Leo Portal: We took into account a general concept of sustainability. Recycling what we are using and the purple pipe.
