Solutions to LA's homelessness crisis call for compassion—and urgency. Focused on the tangible, positive actions community members can take at every level, SORO NC’s 2016 Town Hall seeks to foster empathy and understanding for a problem that can no longer be ignored.

The Town Hall will include a panel discussion and Q&A moderated by KCRW’s Anna Scott with experts and leading elected officials. At this timely event, we’ll address questions like:

• What are some common myths and misconceptions?
• How is the face of homelessness changing?
• Which November ballot measures address the problem effectively?
• How do you interact safely and compassionately when you encounter a homeless person? What might they need?
• Who should you call—and not call?
• Where can you volunteer and contribute to have meaningful impact?
