2011 Community Town Hall Meeting

Renewing Robertson Rec Center

Robertson Recreation Center is being renewed!

Proposition K created substantial funding specifically for the acquisition, improvement, construction, and maintenance of City parks, recreation facilities, and other projects. The goal is to combat the inadequacies and decay of the City’s youth infrastructure, which has resulted in serious unmet needs for park, recreation, childcare and community facilities.

At Robertson, we are just starting the long process to get money, time and investment from the City into our community. And we are lucky to be receiving funds in a time of fiscal crisis. Over the next few months, Council District 5 will be holding meetings, giving out information and keeping people up to date so that we can upgrade and build a new center and give Robertson Rec Center a major facelift!

This event will be the first chance for community to come and hear about the proposed details of the project, see early schematic drawings, and make sure their wishes and concerns are heard by the decision makers, including Council Member Paul Koretz of District 5, the Director of the Proposition K Project and the Bureau of Engineers and their architects.

Together, we are confident we can forge a way forward to a fruitful renovation that will improve the facility for all of SORO’s communities.

Monday, November 7
7:00pm • Free • Open to all
Robertson Recreation Center
1641 Preuss Road, 90035
(corner of Preuss & Airdrome)
