

Motion to give Hamilton High School's S.A.F.E. environment club \$568.38 for campaign to educate campus on new recycling program.

Agenda Item: GB091709-3

Date: 17 September 2009

Proposed By: Paula Waxman

Summary

The Green Team and the students of Hamilton High School's environmental club titled Students Assembled For Earth (S.A.F.E.) request \$568.38 to promote the new recycling program being introduced on the campus, fall 2009.

Full Proposal

Hamilton High School, with its approximately 3500 students and 250 teachers and administrators, is perhaps the largest trash generating facility in the Soro community and yet, until now, it did not successfully recycle its trash.

Over the summer, Hamilton's environmental club (S.A.F.E.), together with the Green Team, and the Department of Sanitation worked out a very simple, yet effective, recycling program. It is one which does not place an additional burden on an already overworked custodial staff, nor does it depend on students to dispose of recycled material into dumpsters at the end of each day. The extent of its success does depend on the students, teachers, and administrators understanding that "wet" waste (and food or drink) should be put in trash cans outside all buildings.

The Hamilton High School students in S.A.F.E and the Green Team have researched a budget for explaining the recycling program to those who come to the campus each day. In most cases we researched two and sometimes three estimates, and wherever possible included local vendors.

The money will be used to purchase a banner, posters, poster supplies, two ¼ page ads in Hamilton's performing arts programs, and advertising on 150 book bags donated to the recycling program by British Petroleum/Arco. We are certain that with this advertising/educational campaign, the recycling program will be a resounding success!

I. One 3'x 10' vinyl banner	\$128.00
II Two full page ads in performing arts program guides	\$200.00

Proposed Motion

That the South Robertson Neighborhood Council extend a budget of \$568.38 to Hamilton High School's environmental club titled S.A.F.E (Students Assembled for Earth) to be used to carry out an advertising campaign to educate students, teachers, and administrators on the new recycling system which begins in the fall 2009. The funds will be used to purchase a vinyl banner, poster board and poster supplies, two full page ads in Hamilton's performing arts program guides, and peel off labels for trash cans and 150 book bags donated by BP/Arco to S.A.F.E. to promote the recycling program

Considerations

Pro

It is a simple system
 A cleaner environment means a better world for all
 The money will be used to educate our future citizens on how to be proper stewards of the earth
 The campus will be able to be pro active about healing our environment

Con

The simplicity of the program itself does not require much active participation by the students
